Establishment—recurrent expenditure (interest payments) (financial year), total Australian currency N[N(8)]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Recurrent expenditure—interest payments
METEOR identifier:	270186
Registration status:	Health! , Superseded 16/01/2020
Definition:	Payments in Australian dollars made by or on behalf of the establishment in respect of borrowings (e.g. interest on bank overdraft) provided the establishment is permitted to borrow, for a financial year.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Establishment—recurrent expenditure (interest payments)
METEOR identifier:	269653
Registration status:	Health! , Standard 01/03/2005
Definition:	Payments made by or on behalf of the establishment in respect of borrowings (e.g. interest on bank overdraft) provided the establishment is permitted to borrow. This does not include the cost of equity capital (i.e. dividends on shares) in respect of profit-making private establishments.
Context:	Health expenditure: This metadata item has been retained in the data set because of its significance for the private sector. Private profit-making establishments will seek to fund their operations either by loan borrowings (debt capital) or raising shares (equity capital). The cost of either can be significant, although the cost of the latter (that is, dividends on shares) would come out of profits.
Object class:	Establishment
Property:	Recurrent expenditure

Value domain attributes

Identifying and definitional attributes

Value domain:	Total Australian currency N[N(8)]
METEOR identifier:	270563
Registration status:	Health! , Standard 01/03/2005 Community Services (retired) , Standard 27/04/2007 Early Childhood , Standard 21/05/2010 Disability , Standard 07/10/2014 National Health Performance Authority (retired) , Retired 01/07/2016
Definition:	Total number of Australian dollars.

Representational attributes

Representation class:	Total
------------------------------	-------

Data type:	Currency
Format:	N[N(8)]
Maximum character length:	9
Unit of measure:	Australian currency (AU\$)

Data element attributes

Collection and usage attributes

Guide for use:	Record values up to hundreds of millions of dollars. Rounded to nearest whole dollar.
Comments:	The item would not have been retained if the data set was restricted to the public sector. In some States, public hospitals may not be permitted to borrow funds or it may be entirely a State treasury matter, not identifiable by the health authority. Even where public sector establishment borrowings might be identified, this appears to be a sensitive area and also of less overall significance than in the private sector.
