Value Domain:	Date DDMMYYYY

Value domain attributes

Representational attributes

Representation class:	Date
Data type:	Date/Time
Format:	DDMMYYYY
Maximum character length:	8

Data element attributes

Collection and usage attributes

Guide for use:	This metadata item should always be recorded as an 8-digit valid date comprising day, month and year. Year should always be recorded in its full 4-digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example, the date July 1 2002 should be recorded as 01072002.
Collection methods:	If the date the dwelling was vacated by tenants is not known, for example, abandonment by tenants, the date the dwelling is discovered to be vacant should be used instead.
