## Data element attributes

### Collection and usage attributes

**Guide for use:** This metadata item should always be recorded as an 8-digit valid date comprising day, month and year. Year should always be recorded in its full 4-digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example, the date July 1 2002 should be recorded as 01072002.

**Collection methods:** In most cases the date eligible for assistance is the same as the date the applicant is effective on the waitlist, not the date actually entered onto the system.

The date eligible for assistance may be before the date entered onto the system.
