Service provider organisation—number of service operation weeks (calendar year), total NN

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Service operation weeks
METEOR identifier:	270377
Registration status:	Community Services (retired) , Standard 01/03/2005 Early Childhood , Superseded 07/06/2011 Health! , Standard 07/12/2011 Disability , Standard 07/10/2014 Indigenous , Standard 13/03/2015
Definition:	The actual number of weeks per year that the agency is open for the provision of service.
Data Element Concept:	Service provider organisation—number of service operation weeks
Value Domain:	Total service operation weeks NN

Value domain attributes

Representational attributes

Representation class:	Total	
Data type:	Number	
Format:	NN	
Maximum character length:	2	
Supplementary values:	Value	Meaning
	90	No regular pattern of operation through a year
	99	Not stated/inadequately described
Unit of measure:	Week	

Collection and usage attributes

Guide for use:	A week is measured from 12:00AM (midnight) Monday morning to 11:59PM the following Sunday. If a service operates within this period then it is counted as having operated during that week. Therefore if an agency operates for only a short time for one of the days within a week, it is counted as operating during that week.
-----------------------	---

Data element attributes

Collection and usage attributes

Guide for use:	Valid numbers are 01 to 52.
Comments:	When collected in conjunction with the number of service operation hours in a day and the service operation days in a week this metadata item can provide useful information on patterns of service delivery.

Source and reference attributes

Implementation in Data Set Specifications: [Children's Services NMDS Community Services \(retired\)](#), Superseded 21/05/2010

DSS specific information:

In the Children's Services NMDS, this data element refers to the number of full and/or part weeks per year that a child care or preschool service is open for the provision of service(s).

This data element is an indicator of availability of child care and preschool services.

This data element will be used to gain a greater understanding of patterns of service delivery, in conjunction with information about the hours in the day and the days in the week in which child care or preschool activities are available at a service.

New services should count the number of weeks that the service plans to operate in a full year.

This question is asked of all services including family day care/in-home care services and their individual caregivers.

This data element is used in conjunction with the data elements *Session start time*, *Session finish time*, and *Day of operation*.

[Commonwealth State/Territory Disability Agreement NMDS - 1 July 2006 Community Services \(retired\)](#), Superseded 14/12/2008

DSS specific information:

The number of weeks the service type outlet usually operates. This data element is reported by all service type outlets

A service type outlet is considered to be operating whenever a service is provided to service users (e.g. if a service type outlet closes for only two weeks over the Christmas period it should be reported as operating for 50 weeks per year).

Service type outlets 7.01–7.04 may record '90' ('no regular pattern of operation through a day'), or, if possible and they wish to do so, they may record the actual number of weeks of operation.

[Commonwealth State/Territory Disability Agreement NMDS \(July 2008\) Community Services \(retired\)](#), Superseded 11/11/2009

DSS specific information:

The number of weeks the service type outlet usually operates. This data element is reported by all service type outlets

A service type outlet is considered to be operating whenever a service is provided to service users (e.g. if a service type outlet closes for only two weeks over the Christmas period it should be reported as operating for 50 weeks per year).

Service type outlets 7.01–7.04 may record '90' ('no regular pattern of operation through a day'), or, if possible and they wish to do so, they may record the actual number of weeks of operation.

[Community Services \(retired\)](#), Standard 13/03/2013

Implementation start date: 01/07/2012

Implementation end date: 30/06/2014

DSS specific information:

In the DS NMDs this data element refers to the number of weeks the [service type outlet usually](#) operates. It is asking about the amount of time the service type outlet is generally open for service provision to [service users](#), not about the amount of time a service type outlet is staffed.

A service type outlet is considered to be operating whenever service is provided to service users e.g. if the service type outlet closes for only 2 weeks over the Christmas period it is considered to usually operate for 50 weeks per year.

This data element is seeking information about the usual weeks of operation of a service type outlet. For example, if a service type outlet received funding from September but intends to operate for 52 weeks per year, '52' is recorded for this data item, and 'No' is recorded for the full financial year of NDA funding data item.

Service type outlet should record '90' ('no regular pattern of operation through a year') if the service type outlet does not have a regular pattern of operation; for

example, a recreation/holiday program which is offered only if there are sufficient numbers (i.e. program offered on demand).

Service type outlets of [activity types](#) 7.01–7.04 may record '90' ('no regular pattern of operation through a year'), or, if it is possible and they wish to do so, they may record the actual number of weeks of operation.
