Type of assistance provided

Important note: This is an archived metadata standard from the AIHW Knowledgebase. For current metadata standards and related information please access METeOR, the AIHW's Metadata Online Registry at http://meteor.aihw.gov.au

Identifying and Definitional Attributes

Data Dictionary: NCSDD

Knowledgebase ID: 000538 Version number: 1

Metadata type: DATA ELEMENT

Registration NCSIMG Admin status: SUPERSEDED

Authority: Effective date: 01-JUL-98

Definition: The type of service(s) or support provided by a community services

agency in response to a clients request for assistance. The types of service(s) or support should be classified in terms of activities.

Context: Information about assistance provided is of fundamental importance

to community service delivery, service planning and for

administrative purposes.

Relational and Representational Attributes

Datatype:

Representational

form:

layout:

Minimum Size:

Maximum Size:

Data Domain: NOVAL Categories used in individual community services

data collections should be mappable to the

activities classification in National Classifications of Community Services Version 1.0. To meet program or service-specific needs, the categories used in individual data collections may be more detailed than those in the activities classification, but they should always be mappable to categories in this classification. Where appropriate, revisions will be

made to the activities classification.

Guide For Use: A client (an individual or family group) may receive more than one type of assistance within a single occasion of assistance.
