Data Dictionary: NHDD

Knowledgebase ID: 000389 Version number: 2

Metadata type: DERIVED DATA ELEMENT

Registration NHIMG Admin status: SUPERSEDED

Authority: Effective date: 30-JUN-99

Definition: The number of admitted patients separated following a length of

stay of less than 35 days totalled for specified programs within an

institution.

Context: Institutional health care: this variable is required to describe

adequately which broad programs of health care are provided in the establishment. Although this classificatory variable can be derived from the person-level data, a detailed description of the desired categories has been included in the National Health Data Dictionary to facilitate the routine production of a set of descriptive statistics for

each establishment.
