
Contracted procedure flag

Important note: This is an archived metadata standard from the AIHW Knowledgebase. For current metadata standards and related information please access METeOR, the AIHW's Metadata Online Registry at <http://meteor.aihw.gov.au>

Identifying and Definitional Attributes

Data Dictionary: NHDD
Knowledgebase ID: 000417 Version number: 0
Metadata type: DATA ELEMENT
Registration Authority: NHIMG Admin status: TRIAL
 Effective date: 01-JUL-96
Definition: Designation that a procedure was not performed in this hospital but was performed by another hospital as a contracted service.
Context: Required to enable the identification of contracted hospital care. This will lead to reduced duplication in reporting patient activity and will enable linkage of services to one episode of care. Used for quality assurance and auditing of data reported as contracted.

Relational and Representational Attributes

Datatype: Numeric
Representational form: CODE
Representation layout: N
Minimum Size: 1
Maximum Size: 1
Data Domain: 1 Contracted admitted procedure
 2 Contracted non-admitted procedure
 NOVAL Otherwise blank

Guide For Use: This flag is to be used by the contracting hospital to indicate a procedure performed by a contracted hospital. It also indicates whether the procedure was performed as an admitted or non-admitted service.

Related metadata: has been superseded by Contract procedure flag version 1

Administrative Attributes

Source Document:
Source Organisation: National Health Data Committee

Comments: This item has been developed by the Contracted Care Working Party of the NHDC and is published to enable trial of the item prior to inclusion in the National Health Data Dictionary.
Superseded by Contract procedure flag (NHIMG) 000417 [version 1].

Originally numbered 000341
