# Service delivery setting

Important note: This is an archived metadata standard from the AIHW Knowledgebase. For current metadata standards and related information please access METeOR, the AIHW's Metadata Online Registry at <a href="http://meteor.aihw.gov.au">http://meteor.aihw.gov.au</a>

### Identifying and Definitional Attributes

Data Dictionary: NCHSDD

Knowledgebase ID: 000916 Version number: 2

Metadata type: DATA ELEMENT

Registration NCSIMG Admin status: DRAFT

Authority: Effective date: 01-APR-02

Definition: The physical setting in which a child receives child care or preschool

services.

Context: There is an increasing policy interest in providing child care and

preschool services in settings that are more flexible and responsive

to the needs of families.

In conjunction with the data elements relating to service provision, including the address of the outlet, this data element supports analyses of the availability of a range of settings in which children

receive child care and preschool services.
