Person—person identifier, XXXXXX[X(14)]

Exported from METEOR (AIHW's Metadata Online Registry)

Person—person identifier, XXXXXX[X(14)]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Person identifier
METEOR identifier:	290046
Registration status:	Health!, Standard 04/05/2005
	Community Services (retired), Standard 25/08/2005
	Independent Hospital Pricing Authority, Standard 01/11/2012
	Early Childhood, Standard 08/04/2013
	Indigenous, Standard 11/08/2014
	Disability, Standard 13/08/2015
	National Health Performance Authority (retired), Retired 01/07/2016
	Youth Justice, Superseded 27/03/2023
Definition:	Person identifier unique within an establishment or agency.
Data Element Concept:	Person—person identifier
Value Domain:	Identifier XXXXXX[X(14)]

Value domain attributes

Representational attributes

Representation class:	Identifier
Data type:	String
Format:	XXXXXX[X(14)]
Maximum character length:	20

Data element attributes

Collection and usage attributes

Guide for use:	Individual agencies, establishments or collection authorities may use their own alphabetic, numeric or alphanumeric coding systems.
	Field cannot be blank.

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
Reference documents:	Standards Australia 2002. AS5017 Health Care Client Identification. Sydney: Standards Australia.
	Standards Australia 2004. AS4846 Health Care Provider Identification. Sydney: Standards Australia.

DSS specific information:

This data element is used to record the Hospital Registration Number (HRN).

HRNs are allocated to people when they are born in Northern Territory public hospitals or when they first attend a Northern Territory public hospital to receive a service. It is a unique number that is not associated with a Medicare number. As at May 2013, the HRNs are either 6 or 7 digits long but there is capacity to increase to more digits as required.

A person's HRN does not change. It remains with them for the duration of their life.

[Ear nose and throat services patient cluster](#)
[Indigenous](#), Standard 05/09/2014
Implementation start date: 01/04/2012
DSS specific information:

This data element is used to record the Hospital Registration Number (HRN).

HRNs are allocated to people when they are born in Northern Territory public hospitals or when they first attend a Northern Territory public hospital to receive a service. It is a unique number that is not associated with a Medicare number. As at May 2013, the HRNs are either 6 or 7 digits long but there is capacity to increase to more digits as required.

A person's HRN does not change. It remains with them for the duration of their life.

Implementation start date: 24/09/2009

[Juvenile Justice NMDS 2007](#)
        [Community Services (retired),](#) Superseded 19/05/2010
Implementation start date: 01/07/2005
DSS specific information:

For the purposes of the Juvenile Justice NMDS, a code consisting of a State and Territory identifier followed by a varying number of characters, depending on the State and Territory.

A State and Territory identifier should be the first character of the ID, according to

the following ABS standard:

1. New South Wales

2. Victoria

3. Queensland

4. South Australia

5. Western Australia

6. Tasmania

7. Northern Territory

8. Australian Capital Territory

9. Other Territories (i.e. Cocos (Keeling) Islands, Christmas Island and Jervis Bay Territory)

Each client is to be assigned a *Client ID* by the juvenile justice department that will be retained by the juvenile and will remain unique to that client through time. The first character of the ID code indicates the State or Territory of the juvenile justice department responsible for the juvenile. Subsequent characters may be alphabetical or numeric and the number of characters may vary between States and Territories. However, within each State and Territory, each client should be identified by a code using a consistent format.

The identifier should be assigned by the State or Territory juvenile justice department when the juvenile first comes under the department's control or supervision. The client should retain the same unique identifier across episodes and across time.

This data element should be recorded for each juvenile justice client on entry to each juvenile justice episode.
