# Birth event—birth method, code N

## Identifying and definitional attributes

|                              |   |
|------------------------------|---|
| <b>Metadata item type:</b>   | Data Element  |
| <b>Short name:</b>           | Method of birth   |
| <b>METEOR identifier:</b>    | 295349  |
| <b>Registration status:</b>  | <a href="#">Health!</a> , Superseded 02/08/2017   |
| <b>Definition:</b>           | The method of complete expulsion or extraction from its mother of a product of conception in a birth event, as represented by a code. |
| <b>Data Element Concept:</b> | <a href="#">Birth event—birth method</a>  |
| <b>Value Domain:</b>         | <a href="#">Method of birth code N</a>  |

## Value domain attributes

## Representational attributes

|                                  |        |
|----------------------------------|--------|
| <b>Representation class:</b>     | Code   |
| <b>Data type:</b>                | Number |
| <b>Format:</b>                   | N      |
| <b>Maximum character length:</b> | 1      |

|                              | <b>Value</b> | <b>Meaning</b>                    |
|------------------------------|--------------|-----------------------------------|
| <b>Permissible values:</b>   | 1            | Vaginal—non-instrumental          |
|                              | 2            | Vaginal—forceps                   |
|                              | 4            | Caesarean section                 |
|                              | 5            | Vaginal— vacuum extraction        |
| <b>Supplementary values:</b> | 9            | Not stated/inadequately described |

## Source and reference attributes

|                                 |   |
|---------------------------------|---|
| <b>Submitting organisation:</b> | National Perinatal Data Development Committee |
|---------------------------------|---|

## Data element attributes

## Collection and usage attributes

|                            |  |
|----------------------------|--|
| <b>Guide for use:</b>      | In a vaginal breech with forceps to the after coming head, code as vaginal - forceps.  |
|                            | In a vaginal breech that has been manually rotated, code as vaginal - non-instrumental.  |
|                            | Where forceps/vacuum extraction are used to assist the extraction of the baby at caesarean section, code as caesarean section.                   |
|                            | Where a hysterotomy is performed to extract the baby, code as caesarean section.   |
| <b>Collection methods:</b> | In the case of multiple births, method of birth should be recorded for each baby born.   |
| <b>Comments:</b>           | Note: Code 3, which had a meaning in previous versions of the data standard is no longer used. As is good practice, the code will not be reused. |
