### Relational attributes

***DSS specific information:***

In the Children's Services NMDS, this item is obtained from the register of services held by the collection agency.

This data element distinguishes mobile child care and preschool services.

**Code 1 Mobile**

Mobile children's services carry children's services to the community. They offer a range of services including occasional care, vacation care, playgroup sessions and child care, as well as other services outside the scope of this collection.

**Code 2 Non-mobile**

Non Mobile should be recorded for all other childcare and preschool services. For example, a child care centre, dedicated preschool, community centre, school, home etc.

In conjunction with *Service delivery setting (children's services)* and *Suburb/town/locality name (person)*, this data element supports analyses of the range of settings in which child care and preschool services are available.
