Data element attributes

Collection and usage attributes

Guide for use: The highest level of educational attainment is the highest qualification reported by a person in any field of study, or the highest year of school completed, whichever is the higher.

This value domain allows for mapping of data to data obtained using the Australian Standard Classification of Education (ASCED) 2001 from the Australian Bureau of Statistics.

There are two exceptions to this:

1. Data using this codeset cannot be mapped to the ASCED for codes 06 and 07 unless the data from both is combined. When combined this data maps to ASCED code 6.
2. The ASCED does not collect information about a person having no educational qualifications whatsoever.

Collection methods: The recommended question wording for this metadata item is as follows:

'What is the highest level of education you/the person/(name) has completed?'
(Mark one box only).

The focus of the item is completed education, so if the person is in Year 11, then the category Junior Secondary Education (Year 10) should be marked as the highest level of education completed.
