Person—communication method, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Communication method
METEOR identifier:	345093
Registration status:	Community Services (retired) , Standard 27/04/2007 Disability , Standard 07/10/2014
Definition:	The method of communication, including sign language, most effectively used by the person, as represented by a code.
Data Element Concept:	Person—communication method
Value Domain:	Communication method code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Spoken language
	2	Sign language
	3	Other effective non-spoken communication (e.g. Canon Communicator, Compic)
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use:	CODES 1, 2 and 3
	The communication must be effective in that the person must be able to communicate more than just basic needs, to unfamiliar people, using this method.
	This item is considered 'not applicable' to young children, i.e. children aged 0–4 years.

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
Reference documents:	Australian Institute of Health and Welfare 2006. Commonwealth State/Territory Disability Agreement National Minimum Data Set (CSTDA NMDS): data guide. Canberra: AIHW.

Data element attributes

Collection and usage attributes

Comments: Method of communication is an important indicator of potential barriers to social inclusion, particularly in conjunction with data on country of birth and interpreter services required.

Source and reference attributes

Submitting organisation: CSTDA NMDS Network.

Reference documents: Australian Institute of Health and Welfare 2006. Commonwealth State/Territory Disability Agreement National Minimum Data Set (CSTDA NMDS): data guide. Canberra: AIHW.
