Collection and usage attributes

Guide for use: CODE 21 Lone parent:
Should be used where a person has no spouse or partner present in the household but who forms a parent-child relationship with at least one [dependent](#) or non-dependent child who is usually resident in the household.

CODE 99 Not stated/inadequately described:

Not for use on primary collection forms. It is primarily for use in administrative collections when transferring data from data sets where the item has not been collected

Collection Methods: A major purpose of this classification is as the basis for identification of [income units](#) and families, statistical units that are important for further analysis.

Data captured on relationships are allocated to the 'Relationship in household' classification in output processing.

Relationships to the selected Person 1 are coded, enabling the family units existing in the household to be identified.

The first person named is identified as Person 1.

Q1 below is asked of all usual residents of the household, except for Person 1:

Q1. What is (your/the Person's) relationship to (Person 1)?
