Standards assessment level code N

Identifying and definitional attributes

Metadata item type:	Value Domain
METEOR identifier:	359012
Registration status:	Health! , Standard 05/12/2007 Community Services (retired) , Standard 10/04/2013 Indigenous , Standard 13/03/2015 Disability , Standard 13/08/2015
Definition:	A codeset representing the level of assessment against relevant industry standards

Representational attributes

Representation class:	Code
Data type:	Number
Format:	N
Maximum character length:	1

	Value	Meaning
Permissible values:	1	Formally assessed
	2	Accredited

Collection and usage attributes

Guide for use: CODE 1 Formally assessed

Formal assessment may entail self-assessment and/or assessment by an independent external reviewer. This assessment may take place in the context of an accreditation process for the organisation.

A formal assessment, whether self-assessed or externally reviewed, should involve a number of aspects, including the planning and development of a clear structure for the assessment process, the use of an accepted evaluation method such as a peer review, and the use of validated tools where these are available.

CODE 2 Accredited

This code should only be recorded where accreditation has been granted to the organisation and is current.
