Data type:	Number
Format:	N[NN]
Maximum character length:	3
Unit of measure:	Day

Data element attributes

Collection and usage attributes

Guide for use:	A day is measured from midnight to midnight. Leave days can occur for a variety of reasons, including: <ul style="list-style-type: none">• treatment by a specialised mental health service• treatment by a non-specialised health service• time in the community.
-----------------------	---

The following rules apply in the calculation of leave days:

- the day the [resident](#) goes on leave is counted as a leave day
- days the resident is on leave are counted as leave days
- the day the resident returns from leave is not counted as a leave day
- if the resident starts a residential stay and goes on leave on the same day, this is not counted as a leave day
- if the resident returns from leave and then goes on leave again on the same day, this is counted as a leave day
- if the resident returns from leave and ends residential care on the same day, the day should not be counted as leave day
- leave days at the end of a residential stay after the commencement of leave are not counted.

If a resident fails to return from leave, then the residential stay is formally ended.
