Implementation in Data Set Specifications:	Indigenous Community Housing DSS 2018-Housing assistance, Standard 10/05/2019
	Implementation start date: 01/07/2018
	DSS specific information:
	This collection uses an alternative code set. These codes should be mapped as follows:
	1 (funded) = 1 (yes)
	0 (unfunded) = 2 (no)

For the purposes of this collection:

- 'funded' refers to an organisation that received government funding for the reference period, and 'unfunded' refers to an organisation that did not receive funding for the reference period;
- where a state/territory housing authority is responsible for managing ICH tenancies for Indigenous people, they are considered a 'funded' organisation.

In NSW, the ICH sector collects data from Aboriginal community housing providers that are actively registered with the Aboriginal Housing Office, rather than by their funding status. For the purposes of this collection, active registration is used as a proxy for funding, but it should be noted that active registration does not guarantee funding.
