Social and support networks

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	392695
Description:	Social and support networks are the connections between individuals and groups. These networks refer to the informal relationships people have with family, friends, neighbours, work colleagues and other members of their community. Support networks can act in a variety of ways, such as provision of information or emotional, practical or financial support, and these in turn provide individuals with a sense of belonging.
