National Disability Agreement: b(1)-Proportion of people with disability who participate in social and community activities, 2010

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Common name:	People with disability who participate in social and community activities, 2010
Short name:	Proportion of people with disability who participate in social and community activities, 2010
METEOR identifier:	393834
Registration status:	Community Services (retired) , Superseded 15/12/2011
Description:	Social and community participation of people with disability
Indicator set:	National Disability Agreement (2010) Community Services (retired) , Superseded 15/12/2011
Outcome area:	People with disability achieve economic participation and social inclusion Community Services (retired) , Standard 23/07/2010 Disability , Standard 13/08/2015
Data quality statement:	National Disability Agreement: b-Proportion of people with disability who participate in social and community activities, 2010 QS Community Services (retired) , Superseded 15/12/2011

Collection and usage attributes

Population group age from:	5 years
Population group age to:	64 years
Computation description:	This indicator will be calculated using the definitions for social participation given in the glossary.
Computation:	$R/N \times 100$ Where R = numerator N = denominator $R/N \times 100$ where R = number of persons aged 5–64 with disability who participate in social activities in the last 3 months and N = total number of persons with disability aged 5–64 years.
Numerator:	Measure (b.1i) Number of persons aged 5–64 years with disability who participated in social activities at home in the last 3 months. Measure (b.1ii) Number of persons aged 5–64 years with disability who participated in social activities away from home in the last 3 months.

Numerator data elements:

Comments:

For (b.1i), (b.2):

By state/territory

- Disability status (has profound or severe disability, other disability or restrictive long term health condition, total with disability, has no disability, total)

All with disability 5-64 years by state/territory

- Sex (male, female, persons)

- Age group (5-14, 15-24, 25-34, 35-44, 45-54, 55-64, total 5-64)

- Remoteness Area (Major Cities, Inner Regional, Outer regional/remote, total)

- Country of birth (Australia, other English speaking countries, all English speaking countries, non-English speaking countries, total (including inadequately described))

- Sex by age group

Indigenous to be reported using different data source (NATSISS) rather than as disaggregation:

Participated in sport, social or community activities in last three months

- Dwelling type

- Sex

- Age

- State/Territory

- Remoteness Area

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Data source attributes

Data sources:**Data Source**

[ABS Survey of Disability, Ageing and Carers \(SDAC\), 2003](#)

Frequency

Every 6 years.

Data custodian

Australian Bureau of Statistics.

Data Source

[Survey of Disability, Ageing and Caring \(SDAC\)](#)

Data Source

[ABS 2008 National Aboriginal and Torres Strait Islander Social Survey \(NATSISS\)](#)

Frequency

Every 6 years.

Data custodian

Australian Bureau of Statistics

Accountability attributes

Reporting requirements: (b.1) and (b.2) SDAC for all data except Indigenous; NATSISS for Indigenous data.

Organisation responsible for providing data: Australian Bureau of Statistics with input from AIHW on social and community activities in scope.

Further data development / collection required: Frequency of data source is listed on the NDIMG workplan for discussion/consideration.

Other issues caveats: Available disaggregation depends on sampling errors and other caveats.

Reporting issues are the same as listed in performance indicator a.

SDAC data are collected every six years.

2003 SDAC does not provide Indigenous status data, therefore Indigenous data needs to be taken from a different source (e.g. NATSISS).

The NATSISS uses the an abbreviated form of the Disability Module, which is less detailed than the SDAC. The ABS has some concerns about the identification of Indigenous people with disability, using this module. Data will only be used if it is deemed fit for purpose when results for the survey are released at the end of October 2009.

Social and community activities as defined in the NATSISS are more culturally appropriate for Indigenous Australians than those in the SDAC.
