National Disability Agreement: j-Proportion of people with disability receiving income support, 2010

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Common name:	People with disability receiving income support, 2010
Short name:	Proportion of people with disability receiving income support, 2010
METEOR identifier:	394078
Registration status:	Community Services (retired) , Superseded 15/12/2011
Description:	Disability income support.
Indicator set:	National Disability Agreement (2010) Community Services (retired) , Superseded 15/12/2011
Outcome area:	People with disability achieve economic participation and social inclusion Community Services (retired) , Standard 23/07/2010 Disability , Standard 13/08/2015

Collection and usage attributes

Population group age from:	16 years.					
Population group age to:	62 years.					
Computation description:	Number of persons with disability who receive the Disability Support Pension divided by total number of people with disability (expressed as a percentage).					
Computation:	The indicator as calculated is a ratio rather than a proportion because the numerator and denominator are from different sources.					
Numerator:	Number of persons with disability aged 16 to 62 years who receive the Disability Support Pension (DSP).					
Numerator data elements:	<table border="1"><tr><td>Data Element / Data Set</td></tr><tr><td>Data Source</td></tr><tr><td>Disability Support Pension (DSP)</td></tr></table> <table border="1"><tr><td>Data Element / Data Set</td></tr><tr><td>Person—age, total years N[NN]</td></tr></table>	Data Element / Data Set	Data Source	Disability Support Pension (DSP)	Data Element / Data Set	Person—age, total years N[NN]
Data Element / Data Set						
Data Source						
Disability Support Pension (DSP)						
Data Element / Data Set						
Person—age, total years N[NN]						
Denominator:	Total number of people with disability aged 16 to 62 years on 30 June of the previous reporting period (e.g. 2008 for the baseline report) as calculated by using age-sex specific disability prevalence rates from the most recent SDAC multiplied by the ERP. For the 2011 report, denominator data will come directly from SDAC 2009.					

Denominator data elements:

Data Element / Data Set

Data Source

[ABS 2008 National Aboriginal and Torres Strait Islander Social Survey \(NATSISS\)](#)

Data Element / Data Set

Data Source

[Survey of Disability, Ageing and Caring \(SDAC\)](#)

Data Element / Data Set

[Person—Australian state/territory identifier, code N](#)

Data Element / Data Set

[Person—sex, code N](#)

Data Element / Data Set

[Person—age, total years N\[NN\]](#)

Data Element / Data Set

[Person—estimated resident population of Australia, total people N\[N\(7\)\]](#)

Data Source

[Estimated Resident Population \(ERP\)](#)

Disaggregation data elements:

Data Element / Data Set

[Person—Australian state/territory identifier, code N](#)

Data Element / Data Set

[Person—sex, code N](#)

Data Element / Data Set

[Person—Indigenous status, code N](#)

Data Element / Data Set

[Person—age, total years N\[NN\]](#)

Data Element / Data Set

[Person—country of birth, code \(SACC 2008\) NNNN](#)

Comments:

Indicator (j.1)

By state/territory

- Sex (male, female, persons) by age group (16–24, 25–34, 35–44, 45–54, 55–62, total 15–62)

- Country of birth (Australia, other English speaking countries, all English speaking countries, non-English speaking countries, total (including inadequately described))

Indicator (j.2)

Indigenous people by state/territory

- Sex (male, female, persons)

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Data source attributes

Data sources:**Data Source**

[ABS 2008 National Aboriginal and Torres Strait Islander Social Survey \(NATSISS\)](#)

Frequency

Every 6 years.

Frequency

Annual

Accountability attributes**Organisation responsible for providing data:**

FaHCSIA/Centrelink and ABS; quality statement to be produced by ABS.

Other issues caveats:

Available disaggregation depends on sampling errors and other caveats. SDAC 2003 does not provide Indigenous status data, the ABS will investigate whether the Indigenous denominator data will come from the NATSISS 2008 or calculated using a similar method to that used in indicator f.

Disability rates for the calculation of the denominator will be used under the assumption of constant rates of disability.

The age pension eligibility age for women is increasing each year so that by 2013 it will be 65 years, the same as for men. Over the following four years, the age pension eligibility age for all people will be increased each year so that by 2017 it will be 67 years. For the 2010 report and onwards, it should be possible to change the age scope of this indicator to be 16–64 years although a parallel indicator for 16–62 years should also be used to detect changes from the 2013 report.

Relational attributes**Related metadata references:**
