National Healthcare Agreement: P63-Children's hearing loss, 2010

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	Children's hearing loss, 2010
METEOR identifier:	395109
Registration status:	Health! , Superseded 08/06/2011
Description:	Prevalence of hearing loss and otitis media in children.
Indicator set:	National Healthcare Agreement (2010) Health! , Superseded 08/06/2011
Outcome area:	Social Inclusion and Indigenous Health Health! , Standard 07/07/2010 Indigenous , Standard 11/09/2012
Data quality statement:	National Healthcare Agreement: P63-Children's hearing loss, 2010 QS Health! , Retired 12/03/2015

Collection and usage attributes

Population group age from:	0 years of age
Population group age to:	14 years of age
Computation description:	Hearing loss measured in three different aggregations of long-term conditions: <ol style="list-style-type: none">1. Complete and partial deafness2. Complete and partial deafness and otitis media3. All diseases of the ear and mastoid <p>Rates are directly age-standardised to the Australian population as at 30 June 2001, except for those relating to the Indigenous population.</p>
Computation:	$1,000 \times (\text{Numerator} \div \text{Denominator})$
Numerator:	Number of children aged 0–14 years with hearing loss or otitis media
Numerator data elements:	

Data Element / Data Set

Hearing loss (self-reported) as described by ICD-10 or ABS input codes

Data Source

[ABS 2007-08 National Health Survey \(NHS\)](#)

Guide for use

Data source type: Survey

There are ICD-10 codes for the following:

Otitis media: H65-H67

Diseases of the middle ear and mastoid: H65-H75

Diseases of the ear and mastoid process: H60-H95

There are no specific ICD-10 codes for the following: Complete or partial deafness or Complete or partial deafness and otitis media. See the *NATSIHS User Guide* for further information.

Data Element / Data Set

Hearing loss (self-reported) as described by ICD-10 or ABS input codes

Data Source

[ABS 2004-05 National Health Survey \(NHS\)](#)

Guide for use

Data source type: Survey

There are ICD-10 codes for the following:

Otitis media: H65-H67

Diseases of the middle ear and mastoid: H65-H75

Diseases of the ear and mastoid process: H60-H95

There are no specific ICD-10 codes for the following: Complete or partial deafness or Complete or partial deafness and otitis media. See the *NATSIHS User Guide* for further information.

Guide for use

Data source type: Survey

Used for disaggregation by state/territory remoteness area and SEIFA of residence

Comments:

Specified disaggregation: Nationally and state/territory by Indigenous status, age, remoteness area and SEIFA of residence.

Available disaggregation: Nationally and state/territory by Indigenous status, age, remoteness area and SEIFA of residence.

Most recent data available for 2010 CRC baseline report: 2007-08.

Representational attributes

Representation class: Rate
Data type: Real
Unit of measure: Person
Format: NN[N.N]

Accountability attributes

Reporting requirements: National Healthcare Agreement

Organisation responsible for providing data: Australian Bureau of Statistics

Further data development / collection required: Increased survey frequency.

Other issues caveats: Specification: Long-term

Disaggregations within individual jurisdictions are subject to data quality considerations.

Self-reported data, particularly by parents about their children, are unreliable, and the sample size from these surveys is such that it will be difficult to pick up statistically significant changes over time, particularly at a jurisdictional level.

See the [Aboriginal and Torres Strait Islander Health Performance Framework 1.12](#) for further detail.
