Prison clinic contact DSS

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	396072
Registration status:	Health! , Superseded 28/04/2016
DSS type:	Data Set Specification (DSS)
Scope:	The Prison clinic contact Data Set Specification (DSS) describes data on the visits by prisoners to the prison clinic during the National Prisoner Health Census reporting period.

Collection and usage attributes

Statistical unit:	The two statistical units in this data set specification are the Health Service Event and the Person . In this data set specification person refers to the prisoner attending the prison clinic.
Guide for use:	This DSS is a component of the Prisoner health DSS. The Prisoner health DSS describes data about public and private prisons operating in Australia. It includes data on prison entrants, prisoners who visit a prison clinic or take repeat medication while in custody, prison clinic services and prison clinic staffing levels. In this DSS, a 'visit' is defined as a face-to-face consultation for which an entry is made in the health service record (other than for routine household-type treatments such as band-aids or paracetamol).
Collection methods:	Information on clinic visits is provided by the treating health professional at the clinic using the Prisoners in Custody—Clinic Visits form. One form is to be completed for each clinic contact.
