National Indigenous Reform Agreement: P24-CDEP participants and off-CDEP job placement, 2010

Identifying and definitional attributes

| | |
|--------------------------------|--|
| Metadata item type: | Indicator |
| Indicator type: | Indicator |
| Short name: | CDEP participants and Off CDEP job placement, 2010 |
| METEOR identifier: | 396637 |
| Registration status: | Community Services (retired) , Superseded 04/04/2011 |
| Description: | <p>There are two measures for this indicator:</p> <p>Measure (1a): Number and proportion of the Indigenous population participating in CDEP.</p> <p>Measure (1b): Proportion of CDEP participants moving into off-CDEP employment.</p> <p>CDEP – Community Development Employment Projects</p> |
| Rationale: | CDEP participation supports labour force participation for Indigenous persons in remote areas in particular. Progress measure for closing the gap target to halve the gap in Indigenous employment outcomes between Indigenous and non-Indigenous Australians within a decade. |
| Indicator set: | National Indigenous Reform Agreement (2010) Community Services (retired) , Superseded 04/04/2011 |
| Outcome area: | Indigenous people of working age participate effectively in all sectors and at all levels of the labour market Indigenous , Standard 21/07/2010 |
| Data quality statement: | National Indigenous Reform Agreement: P24-CDEP participants and off-CDEP job placements, 2010 QS Community Services (retired) , Superseded 04/04/2011 |

Collection and usage attributes

Further data development / collection required: Measure: Long-term; Specification: Interim

Other issues caveats: From 2009-10, reporting for these measures will be split into the two sub-streams of CDEP (Work-Readiness Services and Community Development) following the CDEP restructure, effective from 1 July 2009.

In the new CDEP structure beginning 1 July 2009, new participants can be part of two streams of assistance – Work-Readiness Services and Community Development. From 2009-10 the above measures will be provided for the two streams of assistance. This will be in addition to reporting the total number and proportions reported above. The rationale for this is that the policy reform may have an impact on the number of off-CDEP employment exits, possibly with proportionately more coming from the work-readiness stream. Reporting it by sub-streams will facilitate monitoring of the impact of the policy change and ensure across-time comparability.

The CDEP proportion is a stock variable presented at a point-in-time in a way consistent with the Australian Bureau of Statistics (ABS) population estimate. The off-CDEP proportion is a flow variable presented over a time interval. Over this time interval, multiple off-CDEP employment and CDEP participation episodes can be recorded per participant. As such, the off-CDEP employment measures refer to exits and participations (vis-à-vis participants).
