Non-admitted patient service event—outpatient clinic type, code N[N]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Outpatient clinic type—non-admitted patient
METEOR identifier:	400598
Registration status:	HealthI , Standard 06/10/2010 Independent Hospital Pricing Authority , Standard 01/11/2012
Definition:	The organisational unit or organisational arrangement through which a hospital provides a service to a non-admitted patient, as represented by a code.
Context:	This data element, for use in the Non-admitted patient context, uses a value domain developed for the Outpatient care NMDS, which includes one reference to 'occasions of service'. In this context, 'occasions of service' should be interpreted as synonymous to a 'non-admitted patient service event'.
Data Element Concept:	Non-admitted patient service event—outpatient clinic type
Value Domain:	Outpatient clinic type code N[N]

Guide for use:

The rules for allocating (mapping) clinic services to the clinic codes structure is the responsibility of each State and Territory and these rules need to be applied consistently within each State and Territory.

In most cases, reference to the code guide of permissible values will be adequate to map a hospital's clinics to the data domain. If not, general principles for mapping existing clinics to the data domain should take account of (a) the nature of the specialty, (b) patient characteristics, e.g. age, and (c) the field of practice of the service provider.

Where the patient characteristics have determined that a paediatric clinic type is appropriate, then further differentiation between surgical and medical is determined by (a) the nature of the specialty, and (b) the field of practice of the service provider. That is, paediatric medical would include any investigations, treatment(s) or services provided to a child which do not pertain to the surgical care of diseases or injuries.

In paediatric hospitals, the full range of clinic types should be used.

A guide for the permissible values of codes for the outpatient clinic types is as follows:

CODE 1 Allied Health

- Audiology.
- Clinical Pharmacology.
- Neuropsychology.
- Dietetics.
- Occupational therapy.
- Optometry.
- Orthoptics.
- Orthotics.
