# Specialised mental health service—residential service unit name, text XXX[X(97)]

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Element
<b>Short name:</b>	Residential service unit name
<b>METEOR identifier:</b>	407496
<b>Registration status:</b>	<a href="#">Independent Hospital Pricing Authority, Qualified 23/11/2015 Health!</a> , Superseded 16/01/2020
<b>Definition:</b>	The appellation by which a specialised mental health residential service unit is known or called, as represented by text.
<b>Data Element Concept:</b>	<a href="#">Specialised mental health service—residential service unit name</a>
<b>Value Domain:</b>	<a href="#">Text XXX[X(97)]</a>

## Value domain attributes

### Representational attributes

<b>Representation class:</b>	Text
<b>Data type:</b>	String
<b>Format:</b>	XXX[X(97)]
<b>Maximum character length:</b>	100

## Data element attributes

### Collection and usage attributes

<b>Guide for use:</b>	<p>For the residential service setting, as a minimum, 24-hour staffed residential services that employ mental health trained staff on-site 24 hours per day and other services with less intensive staffing (but the trained staff on-site for a minimum of 6 hours a day and at least 50 hours per week) should be defined as separate service units. This applies to both government-operated residential services and government-funded residential services operated by non-government organisations. In addition, residential service units should be differentiated by target population. Residential services would be separately identifiable as service units using the <a href="#">Specialised mental health service—target population group, code N</a> data element. For additional information, please refer to the glossary item <a href="#">Residential mental health care service</a>.</p>
-----------------------	--

The Residential service unit name should be unique for the service unit in that state/territory. Service unit reporting structures should be identical between all mental health collections (e.g., Mental Health National Minimum Data Sets and the Mental Health National Outcomes and Casemix Collection (NOCC)).
