National Affordability Housing Agreement: g-Proportion of Indigenous households living in overcrowded conditions, 2010

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	Proportion of Indigenous households living in overcrowded conditions, 2010.
METEOR identifier:	410478
Registration status:	Homelessness , Standard 16/02/2011 Indigenous , Standard 11/09/2012
Description:	The proportion of Indigenous households living in overcrowded conditions, 2010
Indicator set:	National Affordable Housing Agreement (2010) Homelessness , Standard 16/02/2011
Outcome area:	Indigenous people have improved amenity and reduced overcrowding, particularly in remote areas and discrete communities Housing assistance , Standard 16/02/2011 Indigenous , Standard 11/09/2012
Data quality statement:	National Affordability Housing Agreement: g-Proportion of Indigenous households living in overcrowded conditions, 2010 QS Homelessness , Standard 16/02/2011 Indigenous , Standard 11/09/2012

Collection and usage attributes

Population group age from:	Indigenous population.
Population group age to:	Indigenous population.
Computation:	(Number of overcrowded Indigenous households / Total number of Indigenous households) X 100.
Numerator:	Number of overcrowded Indigenous households. This is calculated using the Canadian Occupancy Standard for 'needing 1,2,3,4 and > 4 bedrooms'.
