Prison entrant—at risk of suicide or self-harm indicator, yes/no code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	At risk of suicide or self-harm indicator
METEOR identifier:	412490
Registration status:	Health! , Superseded 28/04/2016
Definition:	An indicator of whether a prison entrant has been identified as being at risk of suicide or self-harm, as represented by a code.
Data Element Concept:	Prison entrant—at risk of suicide or self-harm indicator
Value Domain:	Yes/no code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Boolean	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Yes
	2	No

Data element attributes

Collection and usage attributes

Guide for use:	Self-harm is when a person deliberately inflicts physical harm to themselves, often in secret and without anyone else knowing about it. Self-harm is not necessarily a suicide attempt, although it may include suicidal behaviour.
Comments:	Entry to prison can be a time of increased vulnerability and risk of suicide or self-harming behaviours. All prisoners upon reception into prison are assessed to identify those at current risk of suicide or self-harm. These prisoners are then provided with closer observation and monitoring.

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
Reference documents:	Kirchner T, Forns M & Mohino S 2008. Identifying the risk of deliberate self-harm among young prisoners by means of coping typologies. <i>Suicide and Life-Threatening Behavior</i> 38(4):442-48.

Implementation in Data Set Specifications: [Prison entrants DSS Health!](#), Superseded 28/04/2016

DSS specific information:

In this data set specification, risk of suicide/self-harm includes those who have expressed intent to self-harm or commit suicide.

This data element is included in the Prisoner Health DSS as the National Prisoner Health Indicators include the indicator: Proportion of prison entrants identified as currently at risk of suicide or self-harm.
