Guide for use: Within a road name it is possible to find what appears to be a Road type. It is also possible to have a null Road type.

For postal purposes the Road type should be abbreviated.

In this case the street name is MAIN and the Road type is RD.

This data element is one of a number of items that can be used to create a primary address, as recommended by the AS 4590-2006 *Interchange of client information* standard. Components of the primary address are:
