National Indigenous Reform Agreement: PI 25-3 month employment outcomes (post-program monitoring), 2012

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 25-3 month employment outcomes (post-program monitoring), 2012
METEOR identifier:	438731
Registration status:	Indigenous , Superseded 13/06/2013
Description:	Three-month employment outcomes for Indigenous job seekers who have participated in a Department of Education, Employment and Workplace Relations (DEEWR) funded employment assistance program.
Rationale:	Progress measure for closing the gap target to <i>halve the gap in employment outcomes between Indigenous and non-Indigenous Australians within a decade.</i>
Indicator set:	National Indigenous Reform Agreement (2012) Indigenous , Superseded 13/06/2013
Outcome area:	Indigenous people of working age participate effectively in all sectors and at all levels of the labour market Indigenous , Standard 21/07/2010
Data quality statement:	National Indigenous Reform Agreement: PI 25-3 month employment outcomes (post-program monitoring), 2012 QS Indigenous , Superseded 13/06/2013

Collection and usage attributes

Computation description:	Presentation: Number and percentage (per 100 persons). 95% Confidence intervals and relative standard errors are calculated for numbers and proportions.
Computation:	100 x (Numerator ÷ Denominator).
Numerator:	Indigenous job seekers who are employed three months after participating in a Department of Education, Employment and Workplace Relations (DEEWR) funded employment assistance program.

Numerator data elements:

Guide for use

Data source type: Survey and administrative data

Comments:

Most recent data available for 2012 CRC baseline report is 2010-11.

Results where the relative standard error is greater than 50 per cent will not be reported. Estimates with a relative standard error between 25 and 50 per cent will be noted in the data provided as having a high relative standard error and the results should be used with caution.

While the Labour Market Assistance Outcomes Report presents outcomes for Indigenous job seekers across employment service delivered by DEEWR, for this measure a single figure will be presented. It will be the number of Indigenous job seekers in employment three months after participating in employment services divided by the number of Indigenous job seekers who have received employment assistance over the previous 12 months. This will allow the data to be compared over time even though there was a change in the delivery of employment services from Job Network to Job Services Australia and the introduction of the reformed Indigenous Employment Program and the Disability Employment Services reforms.

Baseline year for NIRA target (Halve the gap in employment outcomes within a decade) is 2008; baseline year for this indicator is 2008-09; target year is 2018.
