National Indigenous Reform Agreement: Pl 26b-Proportion of Indigenous 18-24 year olds engaged in full-time employment, education or training at or above Certificate III (Survey Data), 2012

Identifying and definitional attributes

Metadata item type: Indicator Indicator type: Indicator

Short name: PI 26b-Proportion of Indigenous 18-24 year olds engaged in full-time employment,

education or training at or above Certificate III (Survey Data), 2012

METEOR identifier: 438740

Registration status: <u>Indigenous,</u> Superseded 13/06/2013

Description: The proportion of the 18–24 year old population that are engaged in full-time

employment, education and/or training at or above Australian Qualifications

Framework (AQF) Certificate III, by Indigenous status.

Rationale: Engagement in full-time employment, education or training provides young people

with opportunities to acquire work-related skills. Engagement in study or training enables students to can gain the qualifications, skills, knowledge and attributes they

need for successful transition to work.

Indicator set: National Indigenous Reform Agreement (2012)

Indigenous, Superseded 13/06/2013

Outcome area: The Indigenous workforce age population has the depth and breadth of skills and

capabilities required for the 21st century labour market

Indigenous, Standard 21/07/2010

Collection and usage attributes

Population group age

18 years

from:

Population group age to: 24 years

Computation description: Presentation: Per 100 persons (percentage).

95% confidence intervals and relative standard errors are calculated for

proportions.

Computation: 100 x (Numerator ÷ Denominator).

Numerator: People aged 18–24 years who are fully engaged in employment and/or education

and training.

Comments: NO NEW DATA FOR 2012 REPORTING.

Data sources for this indicator are:

-Main data collection: Census.

-Supplementary data collection: NATSISS (Indigenous); NATSIHS (Indigenous);
and SEW (non-Indigenous).

The baseline report reported data from the 2006 Census as the main data collection and data from the 2008 NATSISS (Indigenous) and 2008 SEW (non-Indigenous) as the supplementary data collection. The next available data source will be the 2011-12 NATSIHS for the Indigenous population.

Fully engaged is defined as full time employment, full time education or training, or a mixture of part time employment and part time education or training.

People whose level of study cannot be determined are assumed to be studying at below Certificate III and are therefore excluded from the numerator. Current available data does not provide information on the level of qualification for those working towards qualification but only for those who have completed their education/training. Therefore, the data on education/training includes persons aged 18-24 engaged in education/training at any qualification level.

Prior to 2010, the Survey of Work and Education (SEW) did not include people living in very remote areas. From 2010 onwards, the SEW does not include people living in Indigenous communities in very remote areas. Whilst a reduced scope, this may still affect the comparability of results.

The size of the standard errors mean that SEW data may not be adequate for measuring change over time.

Baseline year for NIRA target (Halve the gap in employment outcomes within a decade) is 2008; baseline year for this indicator is 2006; target year is 2018.

Accountability attributes

Organisation responsible for providing data:

Australian Bureau of Statistics (ABS).

Further data development / Specification: Interim. collection required:

Data is required on the level of qualification for those currently studying (working towards a qualification).

The Australian Bureau of Statistics (ABS) is exploring options for collecting level and field of current study in future household surveys, commencing with the General Social Survey (GSS) 2010.
