#### Collection and usage attributes

Guide for use: A child is defined as attending a preschool program if they attended for at least one

hour during the reference period. Children who were absent during the reference

period due to illness or extended holiday leave should be excluded.

Collection methods: The number of Indigenous children attending a preschool program should be

collected for each preschool program available at the service. These data should

then be aggregated to the service provider level for reporting purposes.

Each child should be counted only once.

Attendance in a preschool program should be reported for the specified reference

period.

Jurisdictions which adopt a two week reference period are required to derive their

data to a representative reference week.
