National Affordable Housing Agreement: Output 1 (supplementary b)-Number of people who are homeless or at risk of homelessness who are assisted to secure and sustain their tenancies, 2011

Exported from METEOR (AIHW's Metadata Online Registry)

National Affordable Housing Agreement: Output 1 (supplementary b)-Number of people who are homeless or at risk of homelessness who are assisted to secure and sustain their tenancies, 2011

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	Output 1 (supplementary b)-Number of people who are homeless or at risk of homelessness who are assisted to secure and sustain their tenancies, 2011
METEOR identifier:	443336
Registration status:	Housing assistance, Recorded 27/09/2011 Homelessness, Recorded 27/09/2011
Description:	Number of households assisted into social housing that were homeless or at risk of homelessness at time of allocation and who sustain their tenancies for 12 months or more.
Indicator set:	National Affordable Housing Agreement (2011) Homelessness, Recorded 27/06/2016 Housing assistance, Recorded 27/06/2016
Outcome area:	People who are homeless or at risk of homelessness achieve sustainable housing and social inclusion Homelessness, Recorded 27/06/2016 Housing assistance, Recorded 27/06/2016

Collection and usage attributes

Population group age from:	Homeless population assisted into social housing.
Computation description:	This output measure is a proxy as it only captures homeless (or at risk of homelessness) people who secure a public rental housing or state owned and managed Indigenous housing tenancy but not community housing or Indigenous community housing and it does not include people who were assisted to secure and sustain private rental tenancies. Furthermore households who exited public rental housing or state-owned and managed housing (SOMIH) into a sustainable private rental tenancy prior to remaining for 12 months will not be included which may result in an undercount. Greatest need is used as a proxy for homelessness or risk of homelessness. Households in 'greatest need' are those at the time of allocation were subject to one or more of the following circumstances: • they were homeless • their life or safety was at risk in their accommodation • their health condition was aggravated by their housing • their housing was inappropriate to their needs • they had very high rental costs Presented as a percentage.
Computation:	100 x (numerator ÷ denominator)
Numerator:	Number of newly assisted households over the previous financial year in public housing (PH) and state owned and managed Indigenous housing (SOMIH) that were in greatest need at time of allocation with a tenure length of 12 months or more as at 30 June (end of current financial year) regardless of whether they are current tenants.
