Representation class:	Total
Data type:	Number
Format:	N[NNNNN]
Maximum character length:	6

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use: The reported total should be limited to telephone calls made and/or received by the service provider organisation during the reporting period in which a direct service activity was provided. This is independent of whether the origin of the call was the service provider or the client. Non-service activity calls, for example, calls to arrange an appointment if the service is not a referral service, should be excluded.
