Seq No.	Metadata item	Obligation	Max occurs
1	Organisation file cluster (Indigenous community housing)	Mandatory	1

Seq No.	Metadata item	Obligation	Max occurs
-	Community housing and Indigenous community housing service provider organisation address details cluster DSS specific information: The data elements in this cluster provide a detailed description of the individual components used to create a dwelling address as described by AS4590. This cluster enables the collection of street name, street number, suburb, postcode and state/territory identifier. Additional items have been provided to describe other common aspects of address, such as building or complex name, post office boxes etc., if required. This collection collected address information in an alternative manner, with a single 40 character alphanumeric field.	Mandatory	1
-	Address—address site name, text X[X(49)] Conditional obligation: Conditional on this component being part of the address of the service provider organisation.	Conditional	1
-	Address—Australian postcode, Australian postcode code (Postcode datafile) {NNNN} DSS specific information: Unknown postcodes are recorded as "U".	Mandatory	1
-	Address—complex road name, text X[X(44)] Conditional obligation: Conditional on this component being part of the address of the service provider organisation.	Conditional	1
-	Address—complex road number 1, road number XXXXXX Conditional obligation: Conditional on this component being part of the address of the service provider organisation.	Conditional	1
-	Address—complex road number 2, road number XXXXXX Conditional obligation: Conditional on this component being part of the address of the service provider organisation.	Conditional	1

-	Address—unstructured address line, text X[X(49)] Conditional obligation: The unstructured address line may be used, if the service provider address does not easily conform to the standard structure.	Conditional	1
-	Service provider organisation—Australian state/territory identifier, code N DSS specific information: This DSS uses abbreviated state and territory names (e.g. NSW, Vic etc.), rather than code values. It does not collect Code 9 'Other territories (Cocos (Keeling) Islands, Christmas Island and Jervis Bay Territory)'.	Mandatory	1
-	Service provider organisation (name)—organisation name, text X[X(49)]	Mandatory	1

Seq No.	Metadata item	Obligation	Max occurs
-	Service provider organisation—government funding indicator, yes/no code N	Mandatory	1

DSS specific information:

In the Indigenous Community Housing (ICH) collection "Unfunded" was recorded as "0". However, in this data element "unfunded" has been recorded as "2" and should be mapped accordingly.

For the purposes of this collection 'funded' refers to an organisation that received government funding for the reference financial year, and 'unfunded' refers to an organisation that did not receive funding for the reference financial year.

In NSW, the ICH sector collects data from Aboriginal Community Housing Providers that are actively registered with the Aboriginal Housing Office, rather than by their funding status. For the purposes of this collection, active registration is used as a proxy for funding, but it should be noted that active registration does not guarantee funding.

Seq No.	Metadata item	Obligation	Max occurs
-	Service provider organisation—gross capital expenditure, total Australian currency N[N(8)].NN	Mandatory	1

DSS specific information:

In the Indigenous Community Housing (ICH) collection, capital expenditure is defined according to the following parameters:

Include:

- Total expenditure on non-financial assets defined as net expenditure on new and second-hand fixed assets, land and intangible assets excluding capitalised interest. Fixed assets are durable goods intended to be employed in the production process for longer than a year. Expenditure on non-financial assets includes:
 - Total expenditure on purchases of existing dwellings.
 - Total expenditure on purchases of new non-financial assets:
 - The purchase of assets intended to be used in the production process for longer than a year. Includes: fixed assets constructed on own account, valued at cost of materials, capitalised salaries and wages, reimbursements received by public authorities for amounts spent on capital works while acting as an agent for other government and private bodies.
 - Total expenditure on purchases of second-hand non-financial assets:
 - The purchase of assets which have been previously used in production in the country.
 - Total expenditure on sales of non-financial assets:
 - The disposal of previously rented dwellings, non-residential buildings, used plant and equipment. Refers to the sale of land (including the sale of residential leases in the ACT). The sale of land and buildings as a package is treated as sales of fixed assets unless a separate value can be determined for the land component. Also refers to the outright sales of intangible assets and disposal of motor vehicles.
 - Total expenditure on assets acquired under finance leases defined as assets acquired under leases and other arrangements, which effectively transfer most of the risks and benefits associated with ownership of the leased property from the lessor to the lessee.

Exclude:

- Expenditure on the acquisition of financial assets
- Second-hand assets imported into the country for the first time which are regarded as new.
- Assets acquired under finance lease arrangements.
- From total expenditure on purchases of new non-financial assets:
 - Capitalised interest;
 - Houses built for sale; and
 - Assets acquired under finance lease arrangements.

-	Indigenous community housing dwelling occupancy status cluster	Mandatory	1

DSS specific information:

The current standards for dwelling occupancy and tenantability status have been added to this data set, to align the Indigenous community housing collection with other housing collections.

An alternative code set is used by the collection, which accounts for most values in the standard items. The alternative codeset and mapping is as follows:

ICH label and value	METeOR standard label and value
1 = Occupied	1 = Yes (Occupied) [Occupancy standard]
2 = Untenantable	2 = No (Untenantable) [Tenantability standard]
0 = Unoccupied	2 = No (Not Occupied) [Occupancy standard]
N/A	1 = Yes (Tenantable) [Tenantability standard]
U = Unknown	9 = Not stated/Inadequately described [Occupancy and Tenantability standards]

The Indigenous community housing code set excludes the collection of dwellings which are 'tenantable'. Dwellings identified as unoccupied according to the ICH data manual, should by default be considered tenantable. Dwellings identified as occupied according to the ICH data manual, may or may not be considered tenantable.
