Value domain attributes

Representational attributes

Representation class:	Total
Data type:	Number
Format:	N[NNNN]
Maximum character length:	5
Unit of measure:	Attendance

Data element attributes

Collection and usage attributes

Guide for use:

Each client is to be counted once for each time they attend an event facilitated by a service provider organisation.

In the case of multi-day events, one attendance should be recorded regardless of the number of days attended. For example, if a client attends 3 days of a 4 day event, it is recorded as one attendance.

Attendance by a carer or relative is not recorded.
