## Property attributes

### Identifying and definitional attributes

<b>Property:</b>	<a href="#">Number of visits to a website</a>
<b>Definition:</b>	A count of visits to a website.

A website visit is a series of page requests from a uniquely identified user of a website within one session. A session ends when more than 30 minutes has elapsed between each page request.

A visit count provides a reliable measure of overall traffic to a website by indicating how many people are accessing pages within and across the website within one session.

Note that a visit can consist of one page view, or many page views.

<b>Property group:</b>	<a href="#">Service provision event</a>
