# Prostate cancer (clinical) NBPDS

## Identifying and definitional attributes

**Metadata item type:** Data Set Specification

**METEOR identifier:** 481386

**Registration status:** [Health!](#), Standard 14/05/2015

**DSS type:** Data Set Specification (DSS)

**Scope:** The purpose of the Prostate cancer (clinical) National best practice data set (PCNBPDS) is to define data standards for the national collection of prostate cancer clinical data so that data collected is consistent and reliable. Collection of this data set is not mandated but it is recommended as best practice where clinical cancer data are collected. It will facilitate more consistent data collection while enabling individual treatment centres or health service areas to develop data extraction and collection processes and policies that are appropriate for their service settings.

The PCNBPDS is used in conjunction with the Cancer (clinical) National best practice data set (CCNBPDS). Mandatory reporting regulations have enabled population-based cancer registries in Australia to collect standard information on all incident cases of cancer apart from non-melanoma skin cancers, from which incidence, mortality and overall survival have been determined and trends monitored. The CCNBPDS provides a framework for the collection of more detailed and comprehensive clinical data such as stage of cancer at diagnosis, other prognostic characteristics, cancer treatment and patient outcomes.

The PCNBPDS will support prospective data collection from the time a person with cancer symptoms is referred or first presents to a hospital or specialist through the entire duration of their illness.

The definitions used in this data set are designed to capture the provision of cancer care on a day-to-day level. They relate to the cancer care pathway and the need to optimise care by correctly diagnosing, evaluating and managing patients with cancer. In addition, end-points and patterns of care can be monitored to understand both the appropriateness and effectiveness of cancer care.

The data elements specified provide a framework for:

- promoting the delivery of evidence-based care to patients with cancer
- facilitating the ongoing improvement in the quality and safety of cancer management in treatment settings
- improving the epidemiological and public health understanding of cancer informing treatment guidelines; and
- professional education guiding resource planning and the evaluation of cancer control activities.

They will facilitate the aggregation of data across different treatment centres.

The underlying long-term goal is to provide data support to improve outcomes for patients by increasing the quality and length of life. For example, a comparison of the actual management of patients with best practice guidelines may identify shortfalls in treatment and limitations in access to treatment modalities for some patients.

## Collection and usage attributes

**Guide for use:** This data set is primarily directed at the clinical and clinical epidemiological use of cancer data. Treatment centres such as hospitals, radiotherapy centres and cancer specialist practices are the settings in which implementation of the Prostate cancer (clinical) NBPDS should be considered. The data set can also be used by a wider range of health and health-related establishments that create, use, or maintain records on health-care clients.

**Comments:***Glossary items*

Glossary terms that are relevant to this data set are included here.

## Metadata items in this Data Set Specification

Seq No.	Metadata item	Obligation	Max occurs
1	<a href="#">Person—erectile dysfunction extent, SHIM score NN</a>	Mandatory	99
	<i>DSS specific information:</i>		
	Collect this item at diagnosis of a person with prostate cancer (prior to the initiation of treatment).		
2	<a href="#">Person—erectile dysfunction assessment date, DDMMYYYY</a>	Mandatory	99
3	<a href="#">Person—faecal incontinence indicator, yes/no/unknown code N</a>	Mandatory	99
	<i>DSS specific information:</i>		
	Collect this item at diagnosis of a person with prostate cancer (prior to the initiation of treatment).		

Seq No.	Metadata item	Obligation	Max occurs
4	<a href="#">Person—urinary incontinence indicator, yes/no/unknown code N</a>  <i>DSS specific information:</i>  Collect this item at diagnosis of a person with prostate cancer (prior to the initiation of treatment).	Mandatory	99
5	<a href="#">Person—urinary incontinence pad use indicator, yes/no/unknown code N</a>  <i>DSS specific information:</i>  Collect this item at diagnosis of a person with prostate cancer (prior to the initiation of treatment).	Mandatory	99
6	<a href="#">Person—urine voiding problem, symptom severity code N</a>  <i>DSS specific information:</i>  Collect this item at the point of diagnosis of a man with prostate cancer (prior to the initiation of treatment).	Mandatory	99
7	<a href="#">Person—prostate-specific antigen level, nanograms per millilitre</a>  <i>DSS specific information:</i>  It is recommended that this item should be recorded at: <ul style="list-style-type: none"> <li>• diagnosis</li> <li>• pre-treatment</li> <li>• post treatment</li> <li>• all subsequent follow-ups</li> </ul>	Mandatory	99
8	<a href="#">Person—prostate-specific antigen test date, DDMMYYYY</a>  <i>DSS specific information:</i>  Collect in conjunction with Person—Prostate-Specific Antigen Test level, nanograms per millilitre.	Mandatory	99
9	<a href="#">Person—prostate cancer diagnostic imaging, code NN</a>	Mandatory	19
10	<a href="#">Person—prostate cancer diagnostic imaging, text X[X(99)]</a>  <i>Conditional obligation:</i>  Collect this item when <a href="#">Person—diagnostic imaging, prostate cancer diagnostic imaging code NN</a> equals other.	Conditional	9
11	<a href="#">Person with cancer—diagnostic histology indicator, yes/no/unknown code N</a>	Mandatory	1
12	<a href="#">Person with prostate cancer—tissue collection method, code N</a>  <i>Conditional obligation:</i>  Collect this item if <a href="#">Person with cancer-diagnostic histology, yes/no/unknown code N</a> equals yes.	Conditional	9

Seq No.	Metadata item	Obligation	Max occurs
13	<a href="#">Person with cancer—biopsy core, number N[NN]</a>	Conditional	9
	<b>Conditional obligation:</b>		
	Collect this item if <a href="#">Person with cancer—diagnostic histology indicator, yes/no/unknown code N</a> equals yes.		
14	<a href="#">Person with cancer—positive biopsy core, number N[NN]</a>	Conditional	9
	<b>Conditional obligation:</b>		
	Collect this item if <a href="#">Person with cancer-diagnostic histology, yes/no/unknown code N</a> equals yes.		
15	<a href="#">Person with cancer—core biopsy length, total millimetres NN.N</a>	Optional	19
16	<a href="#">Person with cancer—core biopsy tumour extent, percentage N[NNN]</a>	Optional	19
17	<a href="#">Person with cancer—core biopsy tumour length, total millimetres NN.N</a>	Optional	19
18	<a href="#">Person with cancer—histopathological grade, Gleason score code N[N]</a>	Mandatory	19
19	<a href="#">Person with cancer—histopathological grade, primary Gleason grade code N</a>	Mandatory	19
20	<a href="#">Person with cancer—histopathological grade, secondary Gleason grade code N</a>	Mandatory	19
21	<a href="#">Person with cancer—histopathological grade, tertiary Gleason Grade code N</a>	Mandatory	19
22	<a href="#">Person with cancer—lymphovascular invasion type, code N</a>	Mandatory	9
	<b>DSS specific information:</b>		
	Collect this item both after diagnostic testing/imaging is completed and after surgery.		
23	<a href="#">Person with cancer—perineural invasion indicator, yes/no/not applicable/not stated/inadequately described code N</a>	Mandatory	9
	<b>DSS specific information:</b>		
	Collect this item both after diagnostic testing/imaging is completed and after surgery.		
24	<a href="#">Person with cancer—extraprostatic extension focality, code N</a>	Conditional	9
	<b>Conditional obligation:</b>		
	Collect this item if <a href="#">Person with cancer—extraprostatic extension, yes/no/unknown/not stated/inadequately described code N</a> equals yes and has been collected as part of the surgical removal of cancer. Do not collect this item if this relates to diagnostic assessment.		
25	<a href="#">Person with cancer—extraprostatic extension indicator, present/indeterminate/not identified code N</a>	Mandatory	1
26	<a href="#">Person with cancer—extraprostatic extension location, code N[N]</a>	Conditional	9
	<b>Conditional obligation:</b>		
	Collect this item if <a href="#">Person with cancer—extraprostatic extension, yes/no/unknown/not stated/inadequately described code N</a> equals yes based on surgical pathology.		

Seq No.	Metadata item	Obligation	Max occurs
27	<a href="#">Person with cancer—distant metastatic site(s) at diagnosis, code N[N]</a>	Mandatory	9
	<b>Conditional obligation:</b> Record when cancer has metastasised to other sites.		
28	<a href="#">Person with cancer—distant metastatic site(s) at diagnosis, topography code (ICD-O-3) ANN.N</a>	Conditional	19
	<b>Conditional obligation:</b> Collect this item when <a href="#">Person with cancer—distant metastatic site(s) at diagnosis, code N[N]</a> equals other.		
29	<a href="#">Person with cancer—clinical trial entry status, code N</a>	Mandatory	9
30	<a href="#">Person with cancer—clinical trial identifier, text X[X(399)]</a>	Conditional	9
	<b>Conditional obligation:</b> Collect this item when <a href="#">Person with cancer—clinical trial entry status, code N</a> equals 2.		
31	<a href="#">Person with cancer—date clinical trial entered, DDMMYYYY</a>	Conditional	9
	<b>Conditional obligation:</b> Collect this item when <a href="#">Person with cancer—clinical trial entry status, code N</a> equals 2.		
32	<a href="#">Person with cancer—date clinical trial completed, DDMMYYYY</a>	Conditional	9
	<b>Conditional obligation:</b> Collect this item when <a href="#">Person with cancer—clinical trial entry status, code N</a> equals 2.		
33	<a href="#">Person with cancer—clinical trial experimental agent or intervention, text X[X(399)]</a>	Conditional	9
	<b>Conditional obligation:</b> Collect this item when <a href="#">Person with cancer—clinical trial entry status, code N</a> equals 2.		
34	<a href="#">Cancer treatment—surgical procedure for prostate cancer, code N</a>	Mandatory	9
35	<a href="#">Person with cancer—pelvic lymph node dissection indicator, yes/no/not stated/inadequately described code N</a>	Mandatory	1
36	<a href="#">Person with cancer—pelvic lymph node dissection laterality, code A</a>	Mandatory	19
37	<a href="#">Person with cancer—tumour focality indicator, code N</a>	Mandatory	9
	<b>DSS specific information:</b> Record this item in relation to surgical pathology only.		
38	<a href="#">Cancer treatment—surgical margin status, positive/negative/unknown code N</a>	Mandatory	9

Seq No.	Metadata item	Obligation	Max occurs
39	<a href="#">Cancer treatment—external beam radiotherapy type, code N[N]</a>	Conditional	9
	<b>Conditional obligation:</b>		
	Collect if the patient has undergone external beam radiotherapy.		
40	<a href="#">Cancer treatment—brachytherapy indicator, yes/no code N</a>	Mandatory	1
41	<a href="#">Cancer treatment—brachytherapy dose rate, code N</a>	Conditional	9
	<b>Conditional obligation:</b>		
	Collect if <a href="#">Cancer treatment—brachytherapy, yes/no code N</a> equals yes.		
42	<a href="#">Cancer treatment—androgen deprivation therapy indicator, yes/no/not applicable code N</a>	Mandatory	1
43	<a href="#">Cancer treatment—androgen deprivation therapy purpose, code N</a>	Conditional	9
	<b>Conditional obligation:</b>		
	Collect this item when <a href="#">Cancer treatment—androgen deprivation therapy, yes/no/not applicable code N</a> equals yes.		
44	<a href="#">Cancer treatment—specialist support services type, code N[N]</a>	Mandatory	29
45	<a href="#">Cancer treatment—specialist support services type, text X[X(99)]</a>	Conditional	29
	<b>Conditional obligation:</b>		
	Collect this item when <a href="#">Cancer treatment—specialist support services type, code N[N]</a> equals other.		
46	<a href="#">Cancer treatment—specialist support services date, DDMMYYYY</a>	Conditional	29
	<b>Conditional obligation:</b>		
	Collect this item when <a href="#">Cancer treatment—specialist support services indicator, yes/no/unknown code N</a> equals yes.		
47	<a href="#">Person with cancer—castrate resistance indicator, yes/no code N</a>	Mandatory	1
48	<a href="#">Person with cancer—castrate resistance date, DDMMYYYY</a>	Conditional	9
	<b>Conditional obligation:</b>		
	Collect this item when <a href="#">Person with cancer—castrate resistance, yes/no code N</a> equals yes.
