Data Element Concept:	Prison dischargee—expected date of release
Value Domain:	Date DDMMYYYY

Value domain attributes

Representational attributes

Representation class:	Date
Data type:	Date/Time
Format:	DDMMYYYY
Maximum character length:	8

Data element attributes

Collection and usage attributes

Guide for use: The expected detention end date or date of release should be within the four weeks following the data collection.

This data item should always be recorded as an 8 digit valid date comprising day, month and year. Year should always be recorded in its full 4 digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example, if a prisoner is released on 1 July 2014 the expected date of release should be recorded as 01072014 as specified by the format.
