## Relationship in household cluster (Indigenous community housing)

#### Identifying and definitional attributes

Metadata item type: **Data Set Specification** 

**METEOR** identifier: 491674

Registration status: Indigenous, Standard 01/05/2013

Housing assistance, Superseded 30/08/2017

DSS type: **Data Element Cluster** 

Scope: The purpose of the cluster is to determine relationships of household members, to

other household members.

Two indicators collect information on whether a household member is:

• in a couple relationship with another household member

single/not in a couple relationship with another household member

• a child residing in the household.

This information is used in conjunction with other data items to determine whether

overcrowding is present in the household, under the Canadian National

Occupancy Standard (CNOS).

#### Relational attributes

Related metadata Has been superseded by Relationship in household cluster (Indigenous community
