**Disaggregation:**

State/territory, by:

- disability status (has profound or severe disability, other disability or restrictive long term health condition, total with disability)

All with reported disability by State/Territory, by:

- sex (male, female, persons)
- age group (5–14 [for measures 2b and 2c only], 15–24, 25–34, 35–44, 45–54, 55–64, total)
- remoteness area (Major Cities, Inner Regional, other, total)
- English proficiency (very well/well, not well/not at all, total)
- country of birth (Australia, other English speaking countries, all English speaking countries, non-English speaking countries, total)
- sex by age group (where possible)

**Comments:**

The National Aboriginal and Torres Strait Islander Social Survey (NATSISS) to be used for Indigenous data.

Data not currently available.

Data disaggregation will depend on reliability of estimates.

## Representational attributes

**Representation class:** Percentage

**Data type:** Real

**Unit of measure:** Person

**Format:** N[NN.N]

## Indicator conceptual framework

**Framework and dimensions:** [Social and support networks](#)

## Data source attributes

**Data sources:****Data Source**

[ABS Survey of Disability, Ageing and Carers \(SDAC\), 2009](#)

**Data custodian**

Australian Bureau of Statistics

**Data Source**

[ABS General Social Survey \(GSS\), 2006](#)

## Accountability attributes

**Reporting requirements:** Annually to COAG.

**Organisation responsible for providing data:** Australian Bureau of Statistics with input from AIHW on social and community activities in scope.

**Other issues caveats:** Indicator (b) is unchanged from indicator (b) in the previous NDA. No new data are available for this cycle of reporting.

Reporting issues are the same as listed in performance indicator (a).

2009 SDAC does not provide this data for the Indigenous population; therefore Indigenous data needs to be taken from a different source (e.g. NATSISS 2008).

The NATSISS uses the abbreviated form of the Disability Module, which is less detailed than the SDAC.

Social and community activities as defined in the NATSISS are more culturally appropriate for Indigenous Australians than those in the SDAC.

Comparison data for the non-disabled population is only available for the first of these performance indicators, from the General Social Survey 2006, and then only for adults.

SDAC does not collect information on whether had face-to-face contact for persons in cared accommodation. Data are available for private dwelling and non-cared accommodation special dwellings only.

No new data available (2009 SDAC and 2010 GSS reported for the previous cycle. 2008 NATSISS reported for the baseline).
