Data element attributes

Collection and usage attributes

Guide for use:	CODE 1 Yes
	This code means the person identifier is a number for a uniquely identified person.
	CODE 2 No
	This code means the person identifier is a number for a non-uniquely identifiable person.
	The assignment of *Person identifier* to a uniquely identifiable individual is important for the Community Mental Health Care (CMHC) NMDS to permit the determination of the number of clients receiving services within a jurisdiction. The ability of jurisdictions to generate unique identifiers varies, as described in the data quality statement for the CMHC NMDS.
