NDA service type outlet

Identifying and definitional attributes

Metadata item type:	Glossary Item
Synonymous names:	Service type outlet
METEOR identifier:	501973
Registration status:	Community Services (retired) , Standard 10/04/2013 Disability , Standard 07/10/2014
Definition:	A service type outlet is the unit of the funded agency that delivers a particular National Disability Agreement (NDA) service type at or from a discrete location.

Collection and usage attributes

Guide for use:	If a funded agency provides, for example, both accommodation support and respite services, it is counted as two service type outlets. Similarly, if an agency is funded to provide more than one accommodation support service type (for example, group homes and attendant care) then it is providing (and is usually separately funded for) two different service types, that is, there are two service type outlets for the funded agency.
