Person—Team Care Arrangement (MBS Item 723) indicator, yes/no code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Team Care Arrangement (MBS Item 723) indicator
METEOR identifier:	504991
Registration status:	Health! , Standard 11/11/2014 Indigenous , Standard 13/03/2015
Definition:	An indicator of whether a Team Care Arrangement (MBS Item 723) has been claimed for a person, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Person—Team Care Arrangement (MBS Item 723) indicator
METEOR identifier:	504975
Registration status:	Health! , Standard 21/11/2013 Indigenous , Standard 13/03/2015
Definition:	An indicator of whether a Team Care Arrangement (MBS Item 723) has been claimed for a person.
Object class:	Person
Property:	Team Care Arrangement (MBS Item 723) indicator

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Value domain attributes

Identifying and definitional attributes

Value domain:	Yes/no code N
METEOR identifier:	270732
Registration status:	Health! , Standard 01/03/2005 Community Services (retired) , Standard 27/04/2007 Early Childhood , Standard 21/05/2010 Housing assistance , Standard 23/08/2010 Homelessness , Standard 23/08/2010 Independent Hospital Pricing Authority , Standard 01/11/2012 Indigenous , Standard 16/09/2014 Disability , Standard 07/10/2014 WA Health , Standard 19/03/2015 National Health Performance Authority (retired) , Retired 01/07/2016 Tasmanian Health , Standard 27/05/2020
Definition:	A code set representing 'yes' and 'no'.

Representational attributes

Representation class: Code

Data type:	Boolean	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Yes
	2	No

Data element attributes

Collection and usage attributes

Guide for use: CODE 1 Yes

A Team Care Arrangement has been claimed for a person.

CODE 2 No

A Team Care Arrangement has not been claimed for a person.

Comments:

The Chronic Disease Management Medicare items on the Medicare Benefits Schedule (MBS) (DoH 2011) enable GPs to plan and coordinate the health care of patients with chronic or terminal medical conditions, including patients with these conditions who require multidisciplinary, team-based care from a GP and at least two other health or care providers. The items are designed for patients who require a structured approach to their care. A 'chronic medical condition' is one that has been or is likely to be present for at least six months, including but not limited to asthma, cancer, cardiovascular disease, diabetes mellitus and musculoskeletal conditions (DoH 2014a).

Team Care Arrangements (TCAs) are required by legislation to include a document that describes:

- treatment and service goals for the patient
- treatment and services that collaborating providers will provide to the patient
- actions to be taken by the patient
- a date to review these matters (DoH 2014b).

This chronic disease management service is for a patient who:

(a) has at least one medical condition that:

- i. has been (or is likely to be) present for at least six months; or
- ii. is terminal; and

(b) requires ongoing care from at least three collaborating health or care providers, each of whom provides a different kind of treatment or service to the patient, and at least one of whom is a medical practitioner (DoH 2011).
