Data element attributes

Collection and usage attributes

Guide for use:

A detention period is the period spent in a particular detention centre for a particular type of detention (pre-court detention, pre-sentence detention, sentenced detention). A detention period ends when:

- The person is released from detention
- The person is transferred to another detention centre
- The person is transferred to the custody of another jurisdiction (e.g. adult corrective services, police custody, interstate)
- The type of detention changes (pre-court detention, pre-sentence detention, sentenced detention)
- The person escapes from detention or absconds
- The person dies.

DSS specific information:

Detention periods may be concurrent where the detention types are different.

When a detention end date is after the end of the reporting period (e.g. for the 2009–10 reporting period, after the 30/06/2010) or if the detention end date is null in the local data system, supply the actual detention end date or insert the dummy date (22/02/2222) if the detention end date is unknown. Do not end the order at the end of the reporting period.
