Informal carer—receipt of carer allowance or payment indicator

Identifying and definitional attributes

Metadata item type: Data Element Concept

METEOR identifier: 509134

Registration status: Community Services (retired), Standard 10/04/2013

Disability, Standard 13/08/2015

Definition: An indicator of whether an informal carer receives a <u>carer allowance</u> or <u>carer</u>

payment.

Object Class attributes

Identifying and definitional attributes

Object class: <u>Informal carer</u>

Definition: An informal carer includes any person, such as a family member, friend or

neighbour, who is giving regular, ongoing assistance to another person without

payment for the care given.

Context: Care and support networks where the carers are unpaid (other than pension or

benefit) play a critical role in community services provision, especially in caring for

frail aged and younger people with disability within the community.

Information about informal carers is therefore of fundamental importance in assessing the ongoing needs of clients and their carers, and in service planning. The presence of an informal carer is often a key indicator of a person's ability to remain at home, especially if the person requires assistance. The absence of an informal carer, where a vulnerable client lives alone, is an indicator of client risk. Information on client living arrangements and informal carer availability provides an indicator of the potential in-home support and the extent to which the burden of care

is absorbed by the informal caring system.

The stability or otherwise of the informal carer's availability may be significant in the

capacity of the client continuing to remain at home.

Existing carer definitions (e.g. for purposes of establishing eligibility for Domiciliary Nursing Care Benefits (DNCB/Carer Allowance; Carer's Pension/Carer Payment) definitions used in ABS population, surveys of disability, ageing and carers) vary in

context and purpose.

Specialisation of: Service/care provider

Collection and usage attributes

Guide for use: The definition excludes formal care services such as homecare, care provided by

volunteers or foster care that is arranged by formal services. It also excludes unregistered child carers who are receiving payment for their services. Where a potential carer is not prepared to undertake the caring role, the carer is considered

to be not available.
