Collection and usage attributes

Collection methods: It is expected that the data elements in this cluster will be used to collect information from the individual being assessed, or a proxy/carer or service worker answering on their behalf. The responses are phrased in answer to the question 'For each of the following activities, do you need help/supervision, have difficulty, or use aids/equipment? (choose one answer for each row)'.

Also required is the following preamble to the question:

'The next question is about whether a long-term health condition or disability restricts your everyday activities. A long-term health condition is one that has lasted, or is expected to last, 6 months or more. Examples of long-term health conditions that might restrict your everyday activities include severe asthma, epilepsy, hearing loss, arthritis, depression, autism, kidney disease, chronic pain, speech impairment, stroke.'
