Representational attributes

Representation class:	Code
Data type:	Number
Format:	N
Maximum character length:	1

	Value	**Meaning**
Permissible values:	1	No progress towards goal target achieved
	2	Partial progress towards goal target achieved
	3	Goal achieved at target level
	4	Goal achieved beyond target level
Supplementary values:	9	Not stated/inadequately described

Collection and usage attributes

Guide for use: CODE 1   No progress towards goal target agreed

Use if no progress towards the goal target was achieved, including if no activities or strategies for achieving the goal were implemented.

CODE 2   Partial progress towards goal target achieved

Use if some progress was made towards the goal target, but the goal was not achieved.

CODE 3   Goal achieved at target level

Use if the goal was achieved at the target or planned level.

CODE 4   Goal achieved beyond target level

Use if the goal was achieved beyond the target or planned level.

Collection methods: A measure of progress against goals may be made on initial assessment by a service provider, or as part of a periodic review of a support plan.

Data element attributes

Collection and usage attributes

Guide for use: The level of achievement should be recorded from the client's perspective, as best expressed by the client. Where the client is not able to communicate this perspective, the level of achievement should be informed by a carer and/or family member.

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare.
