National Healthcare Agreement: PI 26-Residential and community aged care places per 1,000 population aged 70+ years, 2014

Exported from METEOR (AIHW's Metadata Online Registry)

National Healthcare Agreement: PI 26-Residential and community aged care places per 1,000 population aged 70+ years, 2014

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Progress measure
Short name:	PI 26-Residential and community aged care places per 1,000 population aged 70+ years, 2014
METEOR identifier:	517628
Registration status:	Health!, Superseded 14/01/2015
Description:	Operational residential and community aged care places/packages per 1,000 people aged 70 years and over, plus Aboriginal and Torres Strait Islander people aged 50–69 years, excluding services funded through Home And Community Care (HACC).
Indicator set:	National Healthcare Agreement (2014) Health!, Superseded 14/01/2015
Outcome area:	Aged Care Health!, Standard 07/07/2010
Data quality statement:	National Healthcare Agreement: PI 26-Residential and community aged care places per 1000 population aged 70+ years, 2014 QS Health!, Superseded 14/01/2015

Collection and usage attributes

Population group age from:	70 years (total population), plus 50 to 69 years (for the Indigenous population).
Computation description:	Aged care places are residential and community aged care places provided under the *Aged Care Act 1997* and services delivered under the Aboriginal and Torres Strait Islander Aged Care Strategy. Residential aged care includes Multi-Purpose Services and places delivered under the National Aboriginal and Torres Strait Islander Flexible Aged Care and Innovative Care Programs. Community aged care includes Community Aged Care Packages (CACP), Extended Aged Care at Home (EACH), EACH Dementia, Transition Care Program, Multi-Purpose Services and packages delivered under the National Aboriginal and Torres Strait Islander Aged Care Strategy and Innovative Care Pool. Presented per 1,000 population.
Computation:	1,000 × (Numerator ÷ Denominator) Calculated separately for residential and community aged care services.
Numerator:	Number of operational aged care places at 30 June

Numerator data elements:

Guide for use

Data source type: Administrative by-product data

Used for disaggregation by remoteness and planning region

Comments:

Most recent data available for 2014 Council of Australian Governments (COAG) Reform Council (CRC) report: 2013.

Department of Health and Ageing (DoHA) population projections:

DoHA projections of the total population are based on the 2011 Census. These projections were prepared (at Statistical Local Area (SLA) level) for DoHA by the Australian Bureau of Statistics (ABS) according to assumptions agreed to by DoHA.

DoHA Indigenous population projections were prepared from ABS Indigenous Experimental 2006 Estimated Resident Population (ERP) data (at SLA level) projected forward so as to align with published *ABS Indigenous Experimental Estimates and Projections* (ABS cat. no. 3238.0, series B) at the state and national level.

DoHA projections by remoteness areas are prepared by summing SLA projections to Remoteness Areas.
