Patient experience survey administration cluster

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	521287
Registration status:	Health! , Recorded 11/10/2013
DSS type:	Data Element Cluster
Scope:	This data element cluster has been added to capture information about the mode of survey, health services in the survey and the timeframe after discharge that the survey was completed. This information will provide the data analysts with information about the source mode of collection and comparability of the data.

Source and reference attributes

Submitting organisation:	Patient Experience Information Development Working Group (PEIDWG), under the joint auspices of the Australian Commission on Safety and Quality in Health Care (ACSQHC) and the National Health Information Standards and Statistics Committee (NHISSC).
