Residential mental health care NMDS 2014-15

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	525052
Registration status:	Health! , Superseded 13/11/2014
DSS type:	National Minimum Data Set (NMDS)
Scope:	Episodes of residential care for residents in all government-funded residential mental health care services in Australia, except those residential care services that are in receipt of funding under the <i>Aged Care Act</i> and subject to Commonwealth reporting requirements (i.e. report to the System for the payment of Aged Residential Care (SPARC) collection).

Collection and usage attributes

Statistical unit:	Episodes of residential care. Statistical units are entities from or about which statistics are collected, or in respect of which statistics are compiled, tabulated or published.
Collection methods:	Data are collected at each service from resident administrative and care related record systems. Services forward data to the relevant state or territory health authority on a regular basis (e.g. monthly). <i>National reporting arrangements</i> State and territory health authorities provide the data to the Australian Institute of Health and Welfare for national collection, on an annual basis. Government-operated services that employ mental health trained staff on-site 24 hours per day are to be included from 1 July 2004. Government-funded, non-government operated services and non 24-hour staffed services can be included from 1 July 2004, optionally. For non 24-hour staffed services to be included they must employ mental health-trained staff on-site at least 50 hours per week with at least 6 hours staffing on any single day. <i>Periods for which data are collected and nationally collated</i> Financial years ending 30 June each year. The reference period starts on 1 July and ends on 30 June each year.
Implementation start date:	01/07/2014
Implementation end date:	30/06/2015

Comments: Some admitted patient care services may meet the definition of a residential mental health service. However, as they are admitted patient care services, relevant data on their patients are reported to the National Minimum Data Set for Admitted Patient Care.
